Government Accountability Defined

Accountability is a form of liability that refers to who and for what and what is accountable, which is understood as the obligation of the holder; presenting and reporting all activities that are his The decision-makers of the government, the private sector, and community organizations are accountable to the public and to the agencies concerned.

Public accountability consists of two kinds, namely (1) vertical accountability and (2) horizontal accountability. Vertical accountability is accountability for the management of funds to higher authorities. Horizontal accountability is the responsibility that is conveyed to the general community.

Accountability basically provides a very important role in creating a good governance activity as a part of improving public confidence in government performance. The conception of accountability can be seen that government officials are not only accountable to higher authorities in the institutional chain of command but also accountable to the general public, non-governmental organizations, mass media, and many other stakeholders.

2nd Amendment Clarified

The Second Amendment, one of the ten amendments to the Constitution comprising the Bill of Rights, states: "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

Join Our Innovative Think Tank

Come brainstorm with independent thinkers in Hays County. Set aside an hour on Thursday May 6th 6pm this coming month and lets work together to get this great country back on track. Attend our one hour meeting, and listen to brilliant speakers and help us innovate and implement actions to save America. Also come and enjoy some BBQ, refreshments and networking

Regional Political Leaders Meeting

Big Government's Totalitarian Takeover Attempt

United for Liberty, Texas, has, as its mission to provide the best long term quality of life for the majority of Texans. The Biden administration is using false narratives to remake America into a socialist/Big Government nation. Socialism has never worked for the benefit of any nation. Our mission is to stop this “remake.”

Socialists throughout history have used divisiveness, envy, greed, and cancel culture to achieve their goals. They divide a population. In the present case, they use race and religion to divide. They use greed and envy...envy from the non working class of the fruits of one's labor of the working class. Socialists take control of culture by pulling down statues, re writing books, ending freedom of speech and debate, and threatening anyone who opposes their agenda. They use violence, riots, murder, rape, theft, arson to intimidate opposition. They destroy the economy and currency, and then offer government support to a destitute and thankful population...which doesn't know that their dire condition is caused by the very politicians who are now offering them government support in exchange for their vote. Today, socialist politicians have closed down the economy, hurting small business, and making them dependent upon government spending...which will ultimately destroy the dollar. They give welfare to everyone...once this money is received, it is spent at Walmart and enters the corporate world, increasing the wealth of the rich. They open borders, which further destroys the wealth of present Americans, and increases the number of poor people (who will vote socialists). They pay sixteen year old girls to have babies, which places the girl and her babies on welfare for their lifetime (and who will vote socialist). They dilute our voting by creating their own voter base. Immediately, the poor love socialism, because legalized theft takes place, transferring assets of the productive class to the non productive, but once these assets are spent, socialists “run out of other people's money,” and quality of life for all declines. Without private capital, there is no money to lend, or to start businesses, or to hire people and provide jobs. Meanwhile, the power of the socialists in control increases, and these corrupt politicians make sure they are well paid and continue in power. Socialism never improved the life of the common man... over time. Our children and college students are being brainwashed to believe in socialism. We must stop this corruption of our nation.

Our vision is to return to the precepts that built America: hard work, work ethic, personal responsibility, capitalism, private property rights, freedom of speech, liberty, limited government. Only with hard work can we win back our nation.

“This nation cannot be conquered by forces abroad, but only by rot from within.”

Abraham Lincoln

A democracy cannot exist as a permanent form of government. It can only exist until the voters discover that they can vote themselves largesse from the public treasury. From that moment on, the majority always votes for the candidates promising the most benefits from the public treasury with the result that a democracy always collapses over loose fiscal policy, always followed by a dictatorship. The average age of the world's greatest civilizations has been 200 years. These nations have progressed through this sequence: From bondage to spiritual faith; From spiritual faith to great courage; From courage to liberty; From liberty to abundance; From abundance to selfishness; From selfishness to apathy; From apathy to dependence; From dependence back into bondage.

Alexander Fraser Tytler

A Concerned American Citizen • Six Major Issues

Once upon a time, not long ago, Americans were proud to be citizens of the greatest country and society that ever existed. Times were good. We had jobs, our kids went to public schools that actually taught them American history, mathematics, science, etc. The average American could afford to own a home and even take a vacation once in a while. We didn't need to worry about the southern border invasionists, school indoctrination, being called racist, looked down upon because of our religion or our love of guns, and we were free. F.R.E.E. Free to do pretty much what we pleased, go where we desired, be who we wanted to be. Slowly, then quicker, and now lightning speed, the liberal left has hijacked the American dream. No longer are people encouraged to be entrepreneurial or even self-sufficient. In fact, those that are, are looked upon as the enemy. Thought of as taking from the less fortunate. Hard work, personal responsibility, integrity, responsibility, etc. are all terms that are foreign to the new liberal left. If society continues on this trajectory, we are surely doomed. Faster than anyone can imagine. The democrat party is intent on waging war on any conservative. Their actions, their beliefs, and even their thoughts. In their opinion, conservatism is the enemy of the liberal left, and must be destroyed. Destroyed at any and all costs. They will stop at nothing. N.O.T.H.I.N.G. Including murder. In fact, including mass murder. In my humble opinion, this liberal insanity can be stopped. But we need brave citizens and politicians to carry the torch. They will surely face backlash so severe, they may wish they had not volunteered. There are six major issues in my opinion that need to be addressed NOW.

Incompetent Republicans: EVERY SINGLE REPUBLICAN REP AND SENATOR NEEDS TO BE ON THE SAME PAGE HERE. This is crucial.

Conservative ideas have proven the test of time. There is plenty of history to fall back on to prove our ideas are sound. Pointing this out is how we win. Instead of only pointing out the dismal ideas of the left, the glorious conservative movement needs to be shared too. We need politicians and other persons of influence to all make the decision to be relentless in this pursuit.

Election Integrity: The fraud committed in the 2020 presidential election is common knowledge. I say common knowledge because even democrats know it was fraud. But they don't care. The end justifies the means. If the Republicans had implemented securities this would not have happened. It could have been avoided.

Southern Border: Biden has opened the southern border to invasion. There is no other way to describe it. Kids or no, they are illegally in this country and we are paying to house them, feed them, educate them. Meanwhile homeless line the streets of all major cities. Illegal invasionists are living it up in a hotel with cable TV, while veterans are on the street and struggling to stay alive. We can't take care of the whole worlds problems, but we sure as hell should not be trying while our citizens are suffering even worse.

Racism: Racism is rampant. Many probably know the current racism as "reverse racism". There is no such thing. Racism is racism. It does not matter what color skin one has to define racism. This blatant hypocrisy must be called out each and every time. This is true racism. There is no argument, and it must be stopped.

Censorship: Censorship of conservatives, conservative speech, and even conservative thought must be stopped. Social media is the most obvious target to contain this before we become China. All social media must lose their Section 230 status. cont.

A Concerned American Citizen • Six Major Issues

cont. This is imperative. Immunity for the blatant and obvious censoring by these conglomerates must end.

Gun rights: Joe Biden is now issuing executive orders for gun control. This lunatic has even said that the Constitution is not absolute. This statement is worthy of impeachment alone. The second amendment was put in place specifically for times like these. When the government is taking too much control of our lives. They want to remove all of our guns and simultaneously force us to carry some sort of vaccine passport? Never. Donald Trump is expecting the citizenship to stand up to this tyranny. We can and we shall. We must save the United States of America in the form it was meant to be.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness"

- Thomas Jefferson

U.S. Voters Prefer Living In Places Allowing Private Firearm Ownership

Most American voters prefer living “where individuals are allowed to own guns,” according to a poll by Just the News Daily and Scott Rasmussen. Across political parties, sixty-three percent (63%) of all voters said they would prefer living in jurisdictions that respect the citizens’ right to keep and bear arms. Just about a quarter (26%) of all the respondents said they would prefer living in areas where private firearm ownership was outlawed. Comparatively, every four out of five Republicans (83%) preferred jurisdictions protecting individuals’ right to keep firearms, while nearly half of Democrats (45%) preferred the same. Twelve percent (12%) of American voters were unsure about their position on the 2A. This poll’s outcome is hardly surprising considering that most gun-controlled jurisdictions are also the most violent and uninhabitable places. This is because gun control has failed to stop criminals from illegally acquiring firearms. Sadly, the same laws undermine the ability of law-abiding citizens to defend themselves. Biden’s administration plans to regulate various firearms, components, and ammunition thus limiting an individual’s ability to keep firearms. These are just the initial steps towards totally preventing individuals from owning guns. Sen. Dianne Feinstein (D-Calif.) and Rep. David Cicilline (D-R.I.) introduced the Assault Weapons Ban of 2021 bill prohibiting the possession of more than 200 firearm models. Similarly, Democrats in the House Gun Violence Prevention Task Force urged the Biden administration to regulate AR-15 pistols under the National Firearms Act using executive action. If Democrats passed every gun control proposal as they wished, the Second Amendment would only exist on paper. Gun grabbers understand that repealing the 2A would be rejected by American voters. Thus, they try to sneak various unconstitutional laws cumulatively having similar effects as a total ban. If American voters do not stop these anti-gun legislators from acting against their interests, our constitution will eventually become a mere piece of paper.

Religious and Medical Freedom is at Stake

HB 573 and its companion bill, SB 1271 are a misguided pieces of legislation. This modification negatively impacts medishare ministries and their non-insurance programs. HB 573 received a hearing in the Texas House of Representatives Insurance Committee on March 9th. Chairman Tom Oliverson could place the bill on the Committee’s calendar at any time, to receive a vote and then move to a full floor vote by the Texas House of Representatives soon after. Contact Lt. Gov Patrick if you OPPOSE HB 573 and its discriminatory treatment of 150,000 religious Texans.
